DIMENSION	59.2x24x10mm
REMOTE SIZE	86x40x7mm
CONNECTION MODE	Common Anode
NETWORK CONNECTION	Powered on& off for 3 times and the light flashes quickly

#### INTRODUCTION & WARRANTY

Thank you for selecting and buying V-TAC LED CONTROLLER V-TAC will serve you the best. Please read these instructions carefully before starting the installation and keep this manual handy for future reference. If you have any other query, please contact our dealer or local vendor from whom you have purchased the product. They are trained and ready to serve you at the best. The warranty is valid for 2 years from the date of purchase. The warranty does not apply to damage caused by incorrect installation or abnormal wear and tear. The company gives no warranty against damage to any surface due to incorrect removal and installation of the product. The products are suitable for 10-12 Hours Daily operation. Usage of product for 24 Hours a day would void the warranty. This product is warranted for manufacturing defects only.

#### NOTE

- This device requires Wi-Fi Frequency 2.4Ghz
- Operating frequency (maximum transmitted power) 2.412-2.484Ghz

## WARNING

1. Please make sure to turn off the power before starting the installation.
2. Installation must be performed by a certified person.

This is the safety alert symbol. This symbol alerts you to potential hazards that could result in property damage and/or serious bodily harm or death.

Caution, risk of electric shock.

This marking indicates that this product should not be disposed of with other household wastes.

## MULTI-LANGUAGE MANUAL QR CODE

Please scan the QR code to access the manual in multiple languages.

## REMOTE FUNCTION

OFF		ON
Brightness -		Brightness +
Warm white 30%	Warm white 60%	Warm white 100%
cool& warm mixed color		cool& warm mixed color
cool white 30%	cool white 60%	cool white 100%

## NOTE

When the key color is inconsistent with the strip light, the output sequence can be adjusted by remote control: the controller is powered on, press the OFF of remote, and then press  continuously for 5 times. The strip light flashes once, indicating that the adjustment is successful. Start up to determine whether the output corresponds to the remote control key. If not, the above steps should be repeated.

## WIFI MODULE SAFETY INSTRUCTIONS

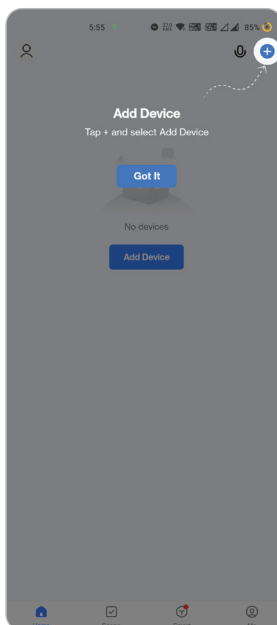

- Make sure that the Input voltage of this product is as prescribed by the manufacturer. Other incoming voltages can cause the product to break down and potentially harm the environment and your health.
- The wires must be connected correctly and in accordance with the colors of the wire and the instructions given in the circuit diagram described in this instruction.
- Make sure before switching on that the power elements have a power lower than that specified by the manufacturer.
- Make sure before plugging in that the led light voltage is suitable for configuration with this product.
- This product is suitable for products manufactured by the company V-TAC, when connected with products of other companies, V-TAC is not responsible for any adverse consequences for your health.

# APP INSTALLATION INSTRUCTIONS

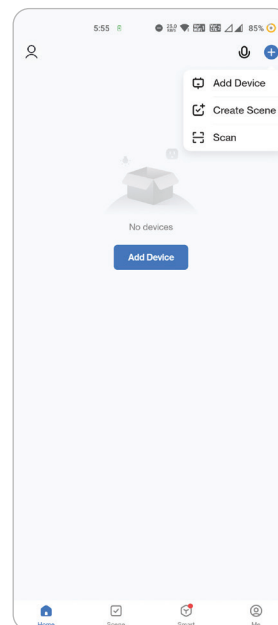

Step 1: Turn the power button ON of the device. Then follow the below instruction for the device.

Step 2: Scan the given QR code, or download “Smart Life” from the App Store (iOS) or the Google Play Store (Android).

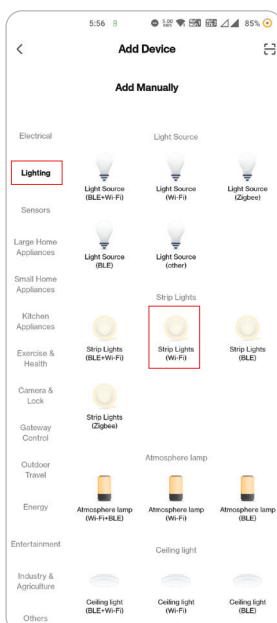

Step 3: Open the Smart Life app and tap on register for creating a new account. If you already have an existing account, please proceed to please proceed to logging in.(Ref Fig 1)

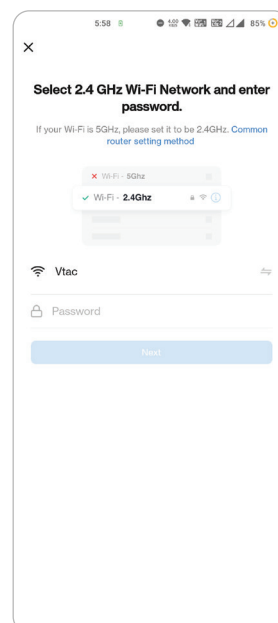

4. Enable Bluetooth and Home Wifi for the device to access your wifi connection for pairing

5. Click “Add a device” or “+” in the top right corner.

6. Click on the Lighting choose “Strip Lights (Wi-Fi)”

7. Select 2.4GHz Wi-Fi network and enter the password

### Reset the device first.

If the light is blinking fast, skip the reset step

- ① Power on
- ② Turn On-off-on-off-on (Subject to User Manual)
- ③ Ensure light is fast blinking

Attention: Please complete pairing process within 3 minutes after device reset.

①

②

Step 8: To pair the device with LED Smart Strip Light make sure the light is blinks rapidly.

Once the light blinks rapidly, the light is in pairing mode. If the light is not blinking rapidly, you can do one of the following steps:

A. Switch the light on & off repeatedly for 3 times, with short intervals of less than 2 seconds.

B. Tap the 'How to make light blink rapidly' link (as shown on the image to the right)

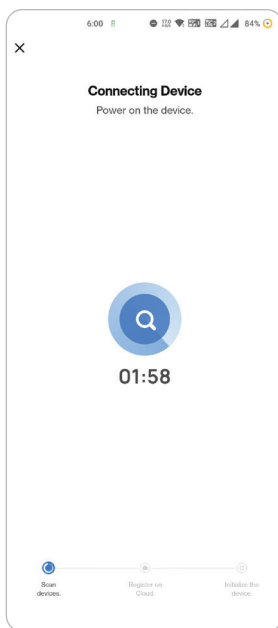

C. You can also enable pairing mode from the Wi-Fi controller. Press and hold the ON/OFF button for 5-7 seconds and wait till you observe the light flashing. Please refer to the instruction section "WI-FI CONTROLLER FUNCTIONS"

Network Modes:

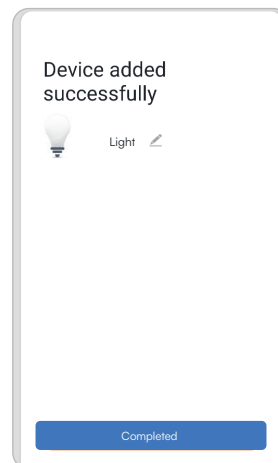

1) Smart Mode: Light flashes rapidly.

2) AP mode: Slow flash, once every 2 seconds.

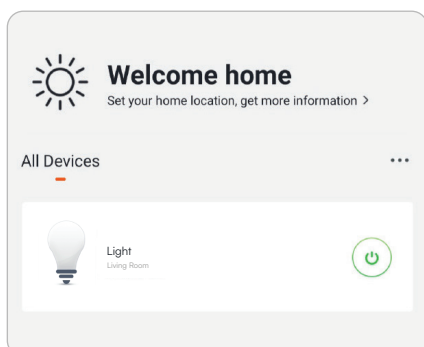

Confirm if the light blinks rapidly, select the Wi-Fi network, and enter the password.

Step 9: Once you have successfully completed step 10, you will be redirected to below page, where the App searches, registers and initializes the device(lamp) (ref image below).

Step 9: Once your device is successfully added, rename the device to your preference.

Step 10: You can now start controlling your device with the App. Tap the device name on the home page to enter the controls and features of the device.

Step 11: After successfully pairing the Wi-Fi receiver with the app, you can start controlling multiple features of the lamp through your mobile— on/off switch, timing & schedules, and more.
